PROFILE

Systems and network administrator (RNCP Level 5 — TSSR) with hands-on enterprise experience including **large-scale deployment** (200+ workstations via Windows Autopilot), Windows Server 2022 administration (AD DS, DNS, DHCP, GPO), security (PfSense, Blancco, Acronis), and professional monitoring tools (Datto RMM, Autotask). Versatile profile further strengthened by **DevOps and scripting skills** (CI/CD, GitHub Actions, Salesforce CLI). English C1+ — available for roles in France and internationally. Concrete proof: on Légarant-AXG (insurance), I delivered the Heroku application AND the Apex REST endpoint it consumes — infra and Salesforce designed together, not in silos.
