Location: Val-d'Oise (95) · Île-de-France — priority Paris / Île-de-France, then Provence-Alpes-Côte d'Azur — Hybrid, On-site, Remote — Open to international relocation

PROFILE

Hybrid Salesforce & Infrastructure engineer — almost 4 years of combined practice (Salesforce development and systems/network administration), with particular attention to environments where the CRM and the infrastructure hosting it must be designed together: industry, energy, logistics, automotive, healthcare, luxury. Apex, Flows, LWC on the platform side; Windows Server, AD DS, PfSense, security and CI/CD on the infra side. RNCP Level 6 — Développeur Concepteur Logiciel, Salesforce specialization (OpenClassrooms, Oct 2025) and RNCP Level 5 — Systems & Networks. Concrete proof: on Légarant-AXG (insurance), I delivered the Apex REST endpoint and the Heroku application that consumes it — one person making both decisions at once, not two juxtaposed skill sets.

WORK EXPERIENCE

Salesforce Developer (Full-time) — LD Digitales

Remote — October 2025 to Present

Direct conversion from apprenticeship — no probation period.

- Designed and delivered advanced Salesforce solutions with business stakeholders
- CI/CD pipelines with Salesforce CLI and GitHub Actions (multi-environment deployments)
- Refactored existing Apex codebases (performance, maintainability, security)
- Code reviews and enforcement of engineering best practices

Salesforce Developer (Apprenticeship) — LD Digitales

Remote — October 2023 to October 2025

- 10 or more Apex classes and batch jobs, 20 or more automation Flows (approximately 30% reduction in manual workload), reusable LWC
- Cross-sandbox CI/CD with Salesforce CLI, data migrations

Junior Systems & Network Administrator (Intern) — Midrange Group

France, On-site — February 2023 to May 2023

- Deployed 200 or more Dell workstations via Windows Autopilot (Sysprep, WDS, PXE)
- Administered Windows Server 2022: AD DS, DNS, DHCP, GPO — PfSense/Squid, Acronis, Datto RMM
- Monitored network infrastructure and responded to security incidents (ransomware drills)

This dual practice isn't two overlapping résumés — it's one person making both decisions at once.
