PROFILE

Systems and network administrator (RNCP Level 5 — TSSR) with hands-on enterprise experience including large-scale deployment (200 or more workstations via Windows Autopilot), Windows Server 2022 administration (AD DS, DNS, DHCP, GPO), security (PfSense, Blancco, Acronis), and professional monitoring tools (Datto RMM, Autotask). Versatile profile further strengthened by DevOps and scripting skills (CI/CD, GitHub Actions, Salesforce CLI). English C1+, available for roles in France and internationally. Concrete proof of the skill crossover: on the Légarant-AXG project (insurance), I delivered the Heroku application and the Apex REST endpoint it consumes — infra and Salesforce designed together, not in silos.
