PROFILE

Systems and network administrator holding the TSSR (RNCP Level 5), complemented by an RNCP Level 6 Software Developer-Designer degree (Bac+3/4). Two one-month internships at MIDRANGE Group, carried out autonomously: deployment of 264 workstations (200 via Windows Autopilot), Windows Server 2022 administration (AD DS, DNS, DHCP, GPO), security (PfSense, Blancco, Acronis) and monitoring (Datto RMM, Autotask). PowerShell scripting and, for 3 years, DevOps-oriented Salesforce development (CI/CD, GitHub Actions, Salesforce CLI). English C1+. Concrete proof of the skill crossover: on the Legarant-AXG project (insurance, RNCP 6 capstone), I delivered the Heroku application and the Apex REST endpoint it consumes — infra and Salesforce designed together, not in silos.
