Trailhead: trailblazer.me/id/aidahoumane

Location: Val-d'Oise (95) · Île-de-France — operational focus Paris / Île-de-France — Hybrid, On-site, Remote — Mobility and relocation considered

PROFILE

Salesforce Developer with almost 4 years on the platform (self-taught since 2022, then 2 years of professional experience at LD Digitales). Specialized in Apex, Flows, and CI/CD, I bring a rare sysadmin background that enables a professional operations mindset: controlled deployments, automated testing, security, and documentation. RNCP Level 6 — Développeur Concepteur Logiciel (OpenClassrooms, Oct 2025). English C1+, available for international remote roles. Concrete proof of the skill crossover: on the Légarant-AXG project (insurance), I delivered the Apex REST endpoint and the Heroku application that consumes it — not two juxtaposed skill sets.

WORK EXPERIENCE

Salesforce Developer (Full-time) — LD Digitales

Remote — October 2025 to Present

Direct conversion from apprenticeship — no probation period.

- Designed and delivered advanced Salesforce solutions in close collaboration with business stakeholders
- Refactored existing Apex codebases to improve quality, performance, and maintainability
- Enforced engineering best practices: CI/CD pipelines, code reviews, performance monitoring
- Coached teammates and learners on Salesforce tooling and delivery methods
- Coordinated with Product and Marketing teams to align technical delivery with business goals

Salesforce Developer (Apprenticeship) — LD Digitales

Remote — October 2023 to October 2025

- Built and maintained 10 or more Apex classes and batch jobs to automate data processing and reporting
- Created 20 or more Flows to orchestrate business processes, reducing manual workload by approximately 30%
- Delivered reusable Lightning Web Components (LWC) via Lightning App Builder
- Implemented CI/CD pipelines with Salesforce CLI and GitHub Actions (cross-sandbox deployments)
- Supported data migrations (CSV, Data Import Wizard) with 99.8% accuracy across 3 major modules
- Documented test scenarios and onboarded 5 or more users

Junior Systems & Network Administrator (Intern) — Midrange Group

France, On-site — February 2023 to May 2023

- Provided technical support for 50 or more workstations across multiple sites
- Deployed 200 or more Dell workstations via Windows Autopilot (Sysprep, WDS, PXE)
- Administered Windows Server 2022: AD DS, DNS, DHCP, GPO — PfSense/Squid, Acronis, Datto RMM
- Monitored network infrastructure and responded to security incidents (ransomware drills)

This IT Ops background differentiates my Salesforce approach: operational rigor, CI/CD mindset, security.

EDUCATION

Développeur Concepteur Logiciel — RNCP Level 6 (Bac+3/4 equivalent)

OpenClassrooms — October 2025 — Salesforce specialization (Oct 2023 to Oct 2025)
