Paris, France (Open to relocation or remote)

Salesforce Developer with 3 years' experience building scalable Apex solutions and automating processes. Reduced manual workload by 30% through optimized Flows and implemented CI/CD pipelines with Salesforce CLI. Seeking to leverage multi-language skills in a remote or relocated international role.

WORK EXPERIENCE

LD Digitales — Salesforce Developer (Remote) Oct 2023 to Oct 2025 (Internship Project)

- Developed and maintained 10+ Apex classes and batch jobs to automate data processing.
- Created over 20 Flows for business automation, reducing manual workload by 30%.
- Designed reusable Lightning App Builder components and Lightning Web Components.
- Managed sandbox environments and implemented CI/CD pipelines with Salesforce CLI.
- Configured data models, page layouts, and Lightning pages for 3 major modules.
- Assisted in data migration using Data Import Wizard and CSV, ensuring 99.8% data accuracy.
- Documented feature testing scenarios and onboarded 5+ users.

Midrange Group — Junior Systems & Network Administrator (Intern) Feb 2023 – May 2023

- Provided technical support for 50+ desktop and laptop workstations across 3 offices.
- Installed and maintained software using Blanco tools; managed backups with Acronis and Datto RMM.
- Monitored network infrastructure and responded to security incidents (including ransomware drills).
- handled security incidents (e.g., ransomware).
