PROFILE

Systems and network administrator holding the TSSR (RNCP Level 5), complemented by an RNCP Level 6 Software Developer-Designer degree (Bac+3/4). Two one-month internships at Midrange Group, carried out autonomously: deployment of more than 200 workstations via Windows Autopilot, Windows Server 2022 administration (AD DS, DNS, DHCP, GPO), security (PfSense, Blancco, Acronis) and monitoring (Datto RMM, Autotask). PowerShell scripting and, for 3 years, DevOps-oriented Salesforce development (CI/CD, GitHub Actions, Salesforce CLI). English C1+. Concrete proof of the skill crossover: on the Legarant-AXG project (insurance, RNCP 6 capstone), I delivered the Heroku application and the Apex REST endpoint it consumes — infra and Salesforce designed together, not in silos.
